**Table: 2 Gender wise Details of Total Students in Arts faculty**

**Table: 3 Gender wise Details of total students in Science faculty**

Sr. No.	Year	Total	Male	Female	% M	% F
1	2022-23	2085	1047	1038	50.21	49.79
2	2023-24	761	293	468	38.50	61.5

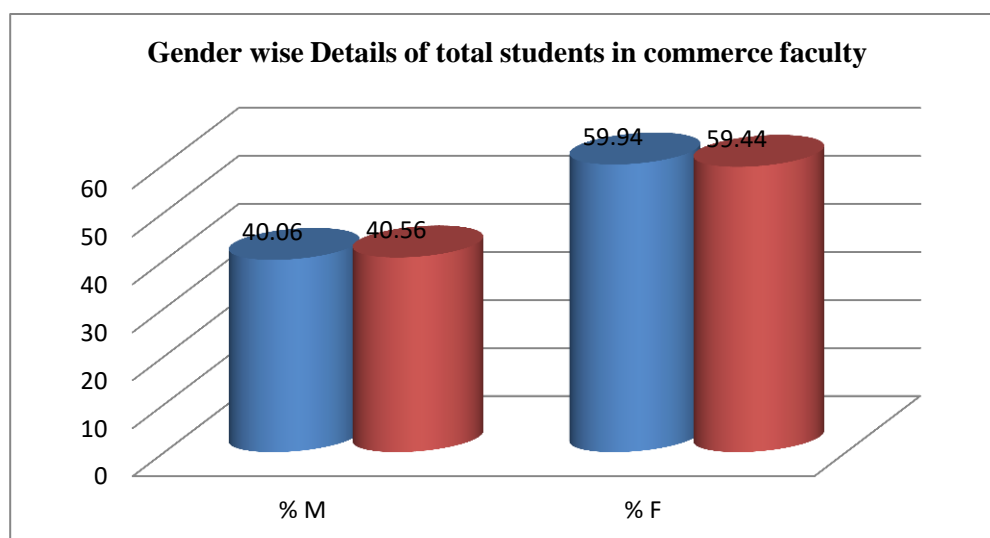

**Figure: 3 Gender wise Details of total students in Science faculty**

Males ratio is decreased by 11.71 percentage in academic year 2023-24. Females ratio increased by of 11.71 percentages in the same year. This data indicates a notable shift in gender distribution from 2022-23 to 2023-24, with a significant increase in the proportion of

females and a corresponding decrease in the proportion of males. In science though the number of females is still more but a decrease is found as compared to previous years. It is interesting to note that participation of female is more in science education. This underlines again, as the comfort zone provided by the college in science laboratories in which males have to interact with staff and female students during practical hours. Similar type of phenomenon has been observed in commerce stream.

**Table: 4 Gender wise Details of total students in commerce faculty**

Sr. No.	Year	Total	Male	Female	% M	% F
1	2022-23	1912	766	1146	40.06	59.94
2	2023-24	1755	712	1041	40.56	59.44

*Figure:4 Gender wise Details of total students in commerce*

The number of Commerce faculty students decreased from 766 to 712 in 2023-24 so there is a slight increase of 0.50 % in male's population and slight increase of 0.50 % in female population as compared to previous year. In commerce the total number is slightly decreased. Reduced some job opportunity in engineering, medical, pharmacy etc. might be the reason why more males are turning to arts, science and commerce.

**Table: 5 Gender wise Details of teaching staff in the College**

Sr. No.	Year	Total	Male	Female	% M	% F
1	2022-23	176	76	100	43.18	56.81
2	2023-24	156	87	69	55.76	44.23

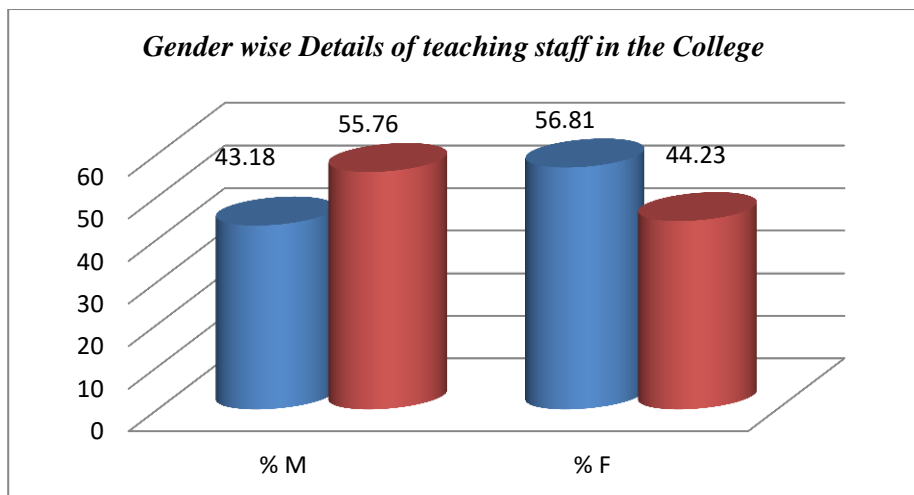

Figure: 5 Gender wise teaching staff in the College

The total number of female teaching staff is more as compared to male in 2022-23 but in next academic year the total number of male staff is more as compared to female in 2023-24. Not with standing mandatory female reservation policy of the state government female teachers are significantly less than the male. This may be due to the fact that well educated female work force has been less. It is improving in the last few decades but not sufficient enough to be reaching to 50% mark. Compared to other colleges in the area this college certainly stands out in terms of women participation in teaching. This proves that Maharashtra men are empowering as time travels. It’s also a need of Institution to have more female teachers with more girl’s students.

Table: 6 Gender wise Details of total HODs in the College

Sr. No.	Year	Total	Male	Female	% M	% F
1	2022-23	15	10	5	66.66	33

2	2023-24	12	10	2	83.33	16.66

**Figure: 7 Gender wise Details of Non-Teaching staff in the College**

Since two years gender wise details of total non-teaching staff in College the ratio is fixed as near about 83.33 % males and 16.66 % female are in non-teaching. It is appropriate to have more than 80% of the staff here as men. But we hope that it can be improved in the future. Otherwise it is not suitable for college students for administration. This issue has been discussed with the principal of the college during audit. According to him the management has complete awareness about the issue. They prefer female candidate at the time of interview and appointment of staff. It is also observed by the management that attrition rate is alarming in case of women staff because of their migration after marriage. The college makes it sure to have presence of women teacher in the office and student facility center during the peak hours. Such kind of practical approach by the head of the institution is well appreciated.

**Table: 8 Gender wise Details of total students in NCC**

Sr. No.	Year	Total	Male	Female	% M	% F

The next year, however, has shown microscopic decrease in female participation. It may be stated here that the girls in the catchment area of the college have consistently believed that it is quite attractive, safe and comfortable for the girls coming from rural areas.

*Figure: 8 Gender wise teaching staff in the College*

The total number of male teaching staff is more as compares to female. Not with standing mandatory female reservation policy of the state government female teachers are significantly less than the male. This may be due to the fact that well educated female work force has been less. It is improving in the last few decades but not sufficient enough to be reaching to 50% mark. Compared to other colleges in the area this college certainly stands out in terms of women participation in teaching. This proves that Maharashtra men are empowering as time travels. It's also a need of Institution to have more female teachers with more girl's students.

**Table: 9 Gender wise Details of total HODs in the College**

This issue has been discussed with the principal of the college during audit. According to him the management has complete awareness about the issue. They prefer female candidate at the time of interview and appointment of staff. It is also observed by the management that attrition rate is alarming in case of women staff because of their migration after marriage. The college makes it sure to have presence of women teacher in the office and student facility center during the peak hours. Such kind of practical approach by the head of the institution is well appreciated.
